Lisbon

1998 16.2h
Imported Oldenburger
Bay Mare
\$10,000

Lisbon is an attractive, well bred mare by Landfries II (Landadel), by an elite Oldenburg mare who is by a State'e Premium Oldenburg Mare. On her dam's side is the great sire Ramiro (Holsteiner) and also Fruhlingsball (Wesfalian). This mare is bred to jump.

Lisbon was selected and imported by Plum Creek Hollow in August of '04. Because of an injury after arrival in Colorado, she was bred twice and delivered two very nice foals.

The first was a colt by Wendesohn (a PCH Oldenburg Stallion), who you can view on this website. His name is Winston and he is just now (Oct. '09) being started under saddle and shows a lot of promise as a hunter or jumper. He is a really nice mover.

The second offspring of Lisbon is a gorgeous bay filly by the successful jumper. Southern Pride. Her name is Southern Belle. She is a really nice mover, has a wonderful temperament and great conformation. You can view both of these young horses on this website.

Because Lisbon had two such exceptionally nice foals, we would like to offer her to someone who would like to jump and/or raise a jumper prospect. For that reason, we offer her open with a free breeding to our Westfalian jumper stallion, Con Capilot, for 2010 or 2011, your choice.

This is an interesting opportunity for someone to have a nice jumper to show or take lessons on, and . also have the opportunity to breed her to an outstanding and well bred jumper stallion.

The price is right, the mare and stallion pedigrees are "Oh, Wow!", and the opportunity is yours now.
