Pequeña

2001 15.2+h
Imported Westfalian
Dark Brown/Black Mare
Sold to Sedalia, CO.

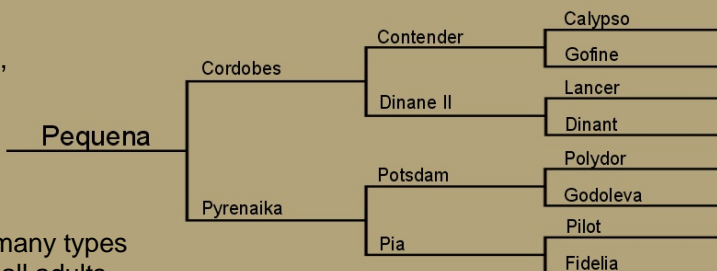

Pequena is a very well bred mare by Cordobes (Contender) whose pedigree includes such greats as Landgraf, Polydor, Ramiro, Coldstern and Pilot.

This very attractive mare was selected and imported by Plum Creek Hollow Farm as a four year old because she demonstrated tremendous jumping talent and style. She has been brought along slowly and carefully and received excellent training at Plum Creek Hollow during the past year and a half. She is very easy and comfortable to ride, not marish, and is a pleasure to ride outside on hacks, either alone or in company. She is easy and steady to the jumps and her demeanor is quiet and co-operative and always willing.

Pequena has very good conformation and a beautiful feminine head. We can't say she's true black because of her dark brown muzzle, but she looks to be black. This lovely mare would be suitable for a capable child, a Young Rider or an amateur. She is easy, safe, comfortable and a real confidence builder. She is easy to handle, easy to rate to the jumps, good before and after the jump and really comfortable to ride.

Pequena is a confident and easy jumper and she is also easily adaptable for the hunter ring. She is a really nice mover and has won ribbons in both hunter over fences and the hack (High Prairie Farm, Parker, Colorado, 2009). As you can see from her pictures and video, she has good form over fences and also moves well under saddle for the hack classes.

This very special mare will more than fit the bill for many types and ages of riders, from experienced children to small adults. She is easy, fun, pretty, comfortable and safe.
